

Privacy policy

In connection with your participation in the VetRepos project, we need your consent to us processing your personal data. We do so under the rules in the [General Data Protection Regulation \(GDPR\)](#). All data is used solely for this project. Only people with clearance can get access to the data.

You can read more about the Vetrepos project on the following website <https://www.vetrepos.eu/>

Please read the following carefully before you give your consent (cf. Art. 6 1a in the GDPR).

Your consent to participating in the VetRepos project means:

- That CPHU on behalf of the VetRepos project may process (including collect, store, delete and anonymize) information about you (Study number, e-mail address, name, university, birth year, study year and gender) and my responses on veterinary test questions and one or two questionnaires about study behaviour, if you decide to participate in it.
- That all data is collected, analyzed, and stored on a European server using software from reliable providers from the EU and Third Countries (eg. Qualtrics XM, IBM and Microsoft) cf. Article 49 1a in GDPR. However, by American law, the U.S. Government has the right to request American companies to give insight into their processed data at all times.
- That your personal data may be stored after the end of this project.
- That your personal data may be shared among the partner universities (Helsinki University, Utrecht University, the Norwegian University of Life Sciences, the Swedish university of Agricultural Sciences, the University of Veterinary Medicine Hanover and Copenhagen University).

Your consent may be withdrawn at any time cf. GDPR Article 17.

You may at any time change or withdraw your consent by sending an email to admin@vetrepos.eu. If you withdraw consent, it will take effect from that point in time, and will not affect the legality of our work with your data in connection with the project up to that point. After confirming your decision all your personal data will be deleted within 30 days. If you do not revoke your consent all personal information will be deleted at the latest one year after the end of your registration as a veterinary student at the partner university where you are currently enrolled.

Within the framework of the GDPR you also have the right to:

- have incorrect information about yourself corrected,
- be forgotten (to have information about you deleted before the time of ordinary deletion occurs),
- have the processing of your personal data restricted,
- object to the otherwise lawful processing of your personal data,
- receive your personal information in a structured, commonly used and machine-readable format.

If you have any questions about our processing of your information, you are always welcome to contact the UCPH data protection officer (email dpo@adm.ku.dk).

You can also contact the Danish Data Protection Agency (See more at www.datatilsynet.dk) for further guidance or any complaint if you are dissatisfied with the way the project processes your personal information.

If you have any questions about the project and/or the use of data, please contact vetrepos@uu.nl.
